

## Welcome to PRE-K & TK!

### Helpful Tips

- Being on time is so important. Our day begins at 9:00 a.m. We begin our learning centers and rotate at specific times. Please understand that your child may miss out on some learning time and activities. We thank you for helping to ensure we start everyone's day in a positive way!
- We encourage independence in our classrooms by having the children put away their items first thing in the morning. Please talk with your child (with guidance from us at first) to put away their backpack, folder, and lunch box. They are such eager learners and will no doubt love having this responsibility.
- Please label all items that come to school. We try our best to keep up with everything, but it would be a big help to have names.
- Please include a complete change of clothing and a pair of socks in their backpack.
- Folders will go home on Tuesdays and Thursdays containing work and notes from that day. **We ask that you please review the items within the folder each day and return the folder empty.**
- Please pack a thermos for classroom. Students are encouraged to get water throughout the day. They will also use this at snack time.
- We ask that you keep those special toys and extra fun items you want to show your friends at home during this school year so we're able to keep everyone as healthy as possible.
- Most importantly, enjoy your time away. We plan to have lots of fun, and you should too!
